

Sinclair Broadcasting is forcing their stations to air an anti-Kerry documentary while calling it "news" only days before the election. This fraud is definitely not in the "public interest"! It is politically slanted broadcasting falsely disguised as news.

Please censure them and pressure them to offer balance. Why are they not going to air "Going Upriver" or some other response as well? This is very undemocratic. If Sinclair is going to use the public airwaves, they should not be allowed to use them to fraudulently offer opinion as news.
